## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- I. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Ia where B = a bond, and Ar = naphthalene or tetrahydronaphthalene.
- II. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Ia where B = a bond, and Ar = tetrahydroquinoline which is attached at the nitrogen position.
- III. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Ia where B = a bond, and Ar = indole or indoline which is attached at the nitrogen position.
- IV. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Ib where B = a bond, and Ar = naphthalene or tetrahydronaphthalene.

- V. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Ib where B = a bond, and Ar = tetrahydroquinoline which is attached at the nitrogen position.
- VI. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Ib where B = a bond, and Ar = indole or indoline which is attached at the nitrogen position.
- VII. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Ic where B = a bond, and Ar = naphthalene or tetrahydronaphthalene.
- VIII. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Ic where B = a bond, and Ar = tetrahydroquinoline which is attached at the nitrogen position.
- IX. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Ic where B = a bond, and Ar = indole or indoline which is attached at the nitrogen position.
- X. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Id where B = a bond, and Ar = naphthalene or tetrahydronaphthalene.
- XI. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Id where B = a bond, and Ar = tetrahydroquinoline which is attached at the nitrogen position.

- XII. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Id where B = a bond, and Ar = indole or indoline which is attached at the nitrogen position.
- XIII. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Id where B = O and Ar = phenyl.
- XIV. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Ie where B = a bond, and Ar = naphthalene or tetrahydronaphthalene.
- XV. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Ie where B = a bond, and Ar = tetrahydroquinoline which is attached at the nitrogen position.
- XVI. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula Ie where B = a bond, and Ar = indole or indoline which is attached at the nitrogen position.
- XVII. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula If where B = a bond, and Ar = naphthalene or tetrahydronaphthalene.
- XVIII. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula If where B = a bond, and Ar = tetrahydroquinoline which is attached at the nitrogen position.

- XIX. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula If where B = a bond, and Ar = indole or indoline which is attached at the nitrogen position.
- XX. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula If where B = O, and Ar = phenyl.
- XXI. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof of the formula If where B = a bond, and Ar = a benzoxazine ring (includes oxo compound) attached at the nitrogen position.
- XXII. Claims 28-61 and 63-70 (in part), drawn to compounds and simple compositions thereof not embraced by groups I-XXI.
- XXIII. Claim 62, drawn to a process of making either of the compounds described in groups I-XXII (applicant must chose one group of compounds).
- XXIV. Claims 71-72, drawn to a method of treating diabetes and dyslipidemia using compounds in either groups I-XXII (applicant must chose one group of compounds).
- XXV. Claims 75-76, drawn to medicines encompassing compounds in either groups I-XXII (applicant must chose one group of compounds).

**Note: A single disclosed chemical specie is required for any group elected.**

**In addition, claims 73-74 are not considered due to non-statutory use claims and are withdrawn from consideration. Cancellation of these claims is recommended.**

The inventions listed as Groups I-XXV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The prior art by Bhuniya *et al.* (WO 03/033481, see example 11, page 91), which is mentioned in the ISR, teach a compound that anticipates claim 29. Therefore, the compounds and methods are not novel and the invention lacks a special technical feature.

The examiner has required restriction between product and process claims. Where applicant elects claims directed to the product, and the product claims are subsequently found allowable, withdrawn process claims that depend from or otherwise require all the limitations of the allowable product claim will be considered for rejoinder. All claims directed to a nonelected process invention must require all the limitations of an allowable product claim for that process invention to be rejoined.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

In the event of rejoinder, the requirement for restriction between the product claims and the rejoined process claims will be withdrawn, and the rejoined process claims will be fully examined for patentability in accordance with 37 CFR 1.104. Thus, to be allowable, the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102, 103 and 112. Until all claims to the elected product are found allowable, an otherwise proper restriction requirement between product claims and process claims may be maintained. Withdrawn process claims that are not commensurate in scope with an allowable product claim will not be rejoined. See MPEP § 821.04(b). Additionally, in order to retain the right to rejoinder in accordance with the above policy, applicant is advised that the process claims should be amended during prosecution to require the limitations of the product claims. **Failure to do so may result in a loss of the right to rejoinder.** Further, note that the prohibition against double patenting rejections of 35 U.S.C. 121 does not apply where the restriction requirement is withdrawn by the examiner before the patent issues. See MPEP § 804.01.
